

HTDG1000 Custom ground rail

DG1000 · Custom ground rail series

Width and precision can be customized for your project.

DG1000 product illustration

Reviewed specifications

Parameter	Value
Dimension-table stroke range	100-2400 mm
Gear-reducer specification code	180 mm
Gear lead	333 mm
Horizontal load	3000 kg
Repeatability	±0.1 mm
Stroke note	Length unrestricted / interval 100
Gear specification	4M
Linear guide (source code)	45
Ordering example (reference)	DG1000-L333-S500-R180-C4-D-K
Sensor model	Outside FC307 (NPN)

A unit is printed only where the source states one.

Installation drawings are in the separate dimension atlas.

Engineering reference

Application notes

Application reference: The source describes the ground rail as a robot external travel axis (seventh axis), extending the travel area for coating, welding, machining, smart warehousing and automotive applications.

Installation reference: With and without sheet-metal shielding are shown on the facing source drawing page.
